

# Omega Lithium - Dreams In Formaline

Tim Burton-influenced goth-metal produced by Victor Love for fans of Lacuna Coil and Evanescence!

---

## DESCRIPTION

Omega Lithium is a new goth-metal band from Croatia that has made waves in the underground metal scene. The band's figurehead is 19-year-old vocalist Mya Mortenssen, whose looks are on a par with her powerful and surprisingly deep voice. Along with Mya, guitarist Malice Rime, bassist Zoltan Harpax and drummer Torsten Nihill have created a powerfully sinister sound which brings to mind the atmospheric goth metal of acts such as Lacuna Coil and Evanescence. Omega Lithium combine cutting metal riffs, rock elements, electro beats, machine-like coolness and haunting atmosphere at the interface of industrial, goth and metal. Music fans will be hooked on "Stigmata" which has true hit potential and is supported by a darkly morbid video with Tim Burton references.
