

## (sic)monic - Somnambulist

Technical, original, brutal, progressive, melodic and plain unbelievable metal from Phoenix, AZ!

### DESCRIPTION

Emerging out of the Phoenix Music scene has come a band that will thrust the modern boundaries of music into extreme new territory. With it's soul crushing melody's and "heart on it's sleeve" emotion, (Sic)Monic is a band that's musical concepts and idea's will build up and tear down the listener with every song. with the groundbreaking new album titled "Somnambulist", (Sic)monic once again jumps into the chaos, and finds comfort in textural and sonic areas most musicians would crumble in. Literally pieces of music within pieces of music, "Somnambulist" offers a kaleidoscopic window into a world of music torn open for all to see with an artistic flair that separates sicmonic from every other hardcore band out there. This time, tearing off into some deep waters, this record could easily have been categorized as avant-garde jazz in the vein of some of John Zorn's work, as metal or hardcore. This record is Heavy, Heady, Heavenly, and some times plain un-categorical. Incredible.

### PRESS :

"A band with their own style, pushing the boundaries and with so many good songs!!! 'Illumination' writhes with emotion, a powerful vocal job, while 'Of Blood and Grace' takes a bit of a Linkin Park vibe and turns it completely Metal and massively emotive, intelligent, and brutal, without abandoning melody, while expanding song structure to include things other than verse/chorus/verse/chorus..."

—Alan Gilkeson, *Metal Rules*

"The band's performance is fantastic, but it's their songwriting that impresses the most, together with Taylor Hession's out of this universe vocal performance. Somnambulist is a truly amazing album, in just about all aspects. rate 93/100"

—Zoka, *Metal Revolution*

"If you're looking for something that has equal amounts of aggressive, progressive and melodic elements Sicmonic pretty much got it nailed with Somnambulist. A 4 star rating is well deserved. An excellent release."

—Umur, *ProgArchives*

"(Sic)Monic brought metal to a new dimension. With their skilled musicians, they are ready to continue in this line and upgrade Heavy Metal to a new genre"

—Erik Masterson, *Fueled Magazine*
