

Darkness - Conclusion & Revival

Third and final release from this obscure German thrash outfit. With bonus tracks from old demos, etc.

DESCRIPTION

Although not as "killer" as the band's previous releases, this, their final album proves that Darkness still punches out some of the best thrash that Germany produced in the 80's. This is a must have for any serious collector of German and early metal. These guys laid the groundwork for every thing that came after.
